

SUNOCO Synturo Crystal C1 5W30

Description Full synthetic fuel saving engine oil, specially developed to give and ensure a long-term protection to the emission systems used in modern cars and to guarantee the efficiency of the emission reduction systems.

Application Recommended for all modern gasoline, LPG and diesel engines with or without turbo charging, used in the latest generation passenger cars equipped with DPF and / or SCR (Diesel Particulate Filter and / or Selective Catalytic Reduction).

Specifications - ACEA C1, A5/B5, A1/B1

Properties

- Low level of ash, phosphor and sulphur, extending the life time of the car's emission control system while keeping up its efficiency.
- Less friction gives fuel-economy & better performance, with lower CO₂ emission.
- Engines keep internally clean, extending the engine lifetime.
- High quality for stable, optimum performance and extended oil drain intervals.

Typical analysis :

density at 15°C	0.848
viscosity at 40°C / cSt	55
viscosity at 100°C / cSt	10
viscosity at -30°C / cP	4700
viscosity index	170
flash point °C	226
pour point °C	-36
TBN mgKOH/g	4.7
sulphated ash % max	0.5
