Dear Mr. Qvist,

Regarding to your inquiry concerning the a.m. products we give you the following information.

The substances listed in the Directive 2002/95/EEC, Restriction of hazardous materials (**RoHS**) as mentioned Lead, Cadmium, Chromium VI, Mercury, polybrominated biphenyls (PBB) and polybrominated diphenylether (PBDE) are neither used as raw materials nor coming our products in contact with such materials during the manufacturing process. Thus we assume that our products are free of these impurities.

We hope this information is helpful if you have any further question please do not hesitate to contact us.

With kind regards
Product Safety

Stefan Kurbjuhn
