## **SECTION 4: First aid measures**

## 4.1 Description of first aid measures

**Inhalation:** Move to fresh air.

**Eye contact:** Rinse the eye with water immediately. If eye irritation persists: Get medical

advice/attention.

Skin Contact: After contact with skin, remove product mechanically. Wash area with soap

and water.

SDS\_GB 3/20

Last revised date: 23.08.2018 Supersedes Date: 12.08.2018

### **TSE 397W**

Ingestion: If swallowed, do NOT induce vomiting. Give a glass of water. Rinse mouth.

Consult a physician for specific advice.

4.2 Most important symptoms and effects, both acute and

delayed:

Product may hydrolyse upon contact with body fluids in the gastrointestinal

tract to produce additional methanol; therefore, consider the

signs/symptoms of methanol poisoning and also observe the known latency

period of several days!

4.3 Indication of any immediate medical attention and special treatment needed

Hazards:

No data available.

Treatment: If swallowed, do NOT induce vomiting. Give a glass of water. If swallowed,

> rinse mouth with water (only if the person is conscious). Product may hydrolyze upon contact with body fluids in the gastrointestinal tract to produce additional methanol. The potential for toxic effects due to methanol formation (eye damage and blindness, metabolic acidosis, dizziness and drowsiness, fetal toxicity, and liver, kidney, and heart muscle

damage) should be recognized.

## **SECTION 5: Firefighting measures**

**General Fire Hazards:** Prevent runoff from fire control or dilution from entering streams, sewers, or

drinking water supply.

5.1 Extinguishing media Suitable extinguishing

media:

All standard extinguishing agents are suitable.

Unsuitable extinguishing

media:

Do not use water jet as an extinguisher, as this will spread the fire.

5.2 Special hazards arising from the substance or

mixture:

In case of fire, carbon monoxide and carbon dioxide may be formed.

5.3 Advice for firefighters Special fire fighting

procedures:

Product may charge electrostatically during pouring or filling. Take

precautionary measures against static discharges. Keep away from sources

of ignition - No smoking.

Special protective equipment for fire-fighters: Use standard firefighting procedures and consider the hazards of other

involved materials. Self-contained breathing apparatus.

## SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:

Provide adequate ventilation. Use personal protective equipment. Keep container tightly closed and in a well-ventilated place. Caution:

Contaminated surfaces may be slippery.

6.2 Environmental Precautions: Prevent runoff from entering drains, sewers, or streams.

6.3 Methods and material for containment and cleaning up:

Use mechanical handling equipment. Shovel up and place in a container for

salvage or disposal.

6.4 Reference to other sections:

Remove sources of ignition.

## **SECTION 7: Handling and storage:**

7.1 Precautions for safe Methanol is formed during processing. Wear appropriate personal

handling: protective equipment.

Storage conditions: Keep away from sources of ignition - No smoking. Store in original

container.

7.2 Conditions for safe storage,

including any incompatibilities:

Keep container tightly closed in a cool, well-ventilated place.

Storage Stability: Material is stable under normal conditions.

**7.3 Specific end use(s):** No data available.
